PROFILE

I grew up sailing on the south coast of England and always felt drawn to the sea, so yachting was a natural step. After a year onboard a busy charter yacht, I've built a solid foundation, learning the ropes, applying my carpentry and painting skills, and developing a strong interest in diving and water sports. I'm now looking for my next challenge to grow further in the industry.

HOBBIES AND INTERESTS

I enjoy sailing and have taken part in local regattas back in the UK. I'm also passionate about diving and love spending time in the water whenever I can. In my downtime, I enjoy cycling and staying active outdoors. I've travelled through parts of Southeast Asia and would love to explore more remote regions by sea one day.
